The Champton's Manager Wants the Cornish man to Make Concessions—Eastern Hace-ball League After Jersey City—An Incident on One of Envece's Tripe to Engiand.

Bob Fitzsimmons, according to a Chicago despatch, still adheres to his determination not enter the prize ring again. A report was sent out from Chicago on Sunday which quoted Martin Julian as caying that Fitssim mons had at last weakened and would agree to take on Corbett for another fight. The champion, however, declared once more yesterday that he had retired from the ring for all time. There is another story behind these facts which contains considerable truth. It is he made to his wife immediately after

known that Fitz is sincere in his unwillingness to fight again, for he wishes to keep the promise ping Corbett. But his manager and brother in-law, Martin Julian, does not look at the matter in the same light, so close friends of both men declare. Julian believes that Fits should say that in due time he will fight Corbett or anybody. He also thinks that, from a business standpoint, Fitzsimmons should not try to convince the public that he will never enter the ring again, but should keep people on edge by the uncertainty of his movements. In a word, Julian thinks that if Fitzsimmons comes out with a statement that he will reconsider his determination not to fight again, and will agree to take on Corbett at "some future date," the Cornishman will prove more of a drawing card on the road than he is at present.

Julian, it is said, realizes that a retired pugi listic champion is not so attractive as an active one, and the recent talk of Corbett, who says he wants to fight, has served to awaken Julian to the situation. It is therefore safe to believe that Julian, acting on his own responsibility and with an eye to business, has spoken for Fitzsimmons by saying that Bob will probably fight again. Fitz, however, mindful of his to his wife and not anxious to fight anyway, does not back up his manager's state when he says with great positiveness that he will not fight again under any circumstances. Fitz also said yesterday that if Stuart visited him to make another match the noted fight promoter would not receive encour agement. Corbett and Brady, both of whom insist that they want to have another fight, are predicting among their friends that Stuart, by some unknown hypnotic methods, will compe the champion to capitulate. It is the opinion many sporting men that Corbett, Fitzsimmons, and Stuart are possibly more desirous of a little free adertising than another meeting in the roped arena. But that can be determined in due time.

in due time.

Fitzsimmons seems disposed to treat McCoy's victory over Creedon rather lightly. He says that Creedon could not have been in first-class condition on last Friday night, and that McCoy is not entitled to the middleweight championship because he defeated the Australian at catchweights. Creedon, however, declares that he was in the best possible condition, and also pronounces McCoy to be a wonderful jugilist. Even granted that the men met at catchweights, it cannot be denied that McCoy can easily get below 158 pounds, and that, barring Fitz, there is not a man in the world considered his equal. If Fitzsimmons can get to the middleweight limit he should readily accept any challenge that may be forthcoming from McCoy. But the latter, if he is wise, will not face the lanky Cornishman in the ring just yet, when there are other easier fields to conquer.

A charge has been trumped up that McCoy did not use fair methods in his battle with Creedon; that one of his seconds, "Doo" Payne, rubbed resin on his gloves between the fifth and sixth rounds, and that when the attention of Manager O'Rourke was called to this fact by a spectator he sharply called Payne down. The story is backed by the statement that O'Rourke admits the truth of it. Those who saw the fight will wonder how it was possible for O'Rourke to make his way to McCoy's corner in order to make he alleged "call down." There was a double row of boxes, filled to overflowing, between that corner of the ring and the alse, which was jammed, and as O'Rourke saw the fight from the opposite side of the ring, near Creedon's corner, it is hard to see how he got around to a point where "Doe" Payne or any other second could hear him. If Payne rubbed resin on McCoy's gloves, it would be rather interesting to know what Creedon's seconds were doing with their eyes at the time, and what the referee was thinking about.

Tem O'Rourke is at Chicago to second Joe Walcott in his battle with Tom Tracey to be pulled off there to-night. Incidentally, he may have a talk with Fitzsimmons about a proposed glove contest to be held at O'Rourke's new club at Coney Island. With Stuart and O'Rourke throwing bouquots at Bob, the latter's will power may be pretty thoroughly tested.

That the Eastern Baseball League is anxious to scoure either Newark or Jersey City as the eighth club instead of Seranton becomes more apparent every day. It was learned yesterday that within the past two weeks certain persons identified with baseball at Jersey City have approached President Freedman of the New York club asking him to give his coment to the placclub asking him to give his consent to the placing of an Eastern League team in that city. It is even hinted that they offered a \$5,000 bonus in cash in return for the privilege, but that the offer was refused. Mr. Freedman said yesterday that he had been asked to permit the admission of Jersey City to the Eastern League, under the celebrated "five-mile" territory agreement, but had been unable to see his way clear to do so. He did not deny that accompanying the request was a financial offer of the above figure.

A minor league club at Jersey City would be a paying venture, so the premoters say, especialty as it would be possible to play Sunday ball at home. With similar games at Newark, the latter city, providing an Eastern League franchise could be obtained, would be a valuable addition to the circuit. In spite of the assertion of President Barrow of the Atlantic League that Newark will not leave his organization, there is ground for the belief that Tom Burns will join the Eastern League if he receives a chance. If that league could supplant Wilkesbarre and Scranton with Newark and Jersey City, the circuit would be placed upon a remarkably sound paying basis. A minor league club at Jersey City would be a

markably sound paying basis.

George Davis, the New York's great shortstop, went to Cleveland the other day to attend
a wedding. His arrival there gave rise to the
rumor that he had come to make some deal for
the release of Ed McKean, the bulky shortstop.
The story was finally sent out as if founded on
fact. President Freedman said yesterday that
while he recognized McKean's ability as a ball
player, there was no place for him on the New
York team, and that Payis had not opened his
mouth about a deal of any kind since he left the
city for the West. The fact that Davis attended the recent League meeting with Mr. Freedman gave rise to a report that George would
agon succeed Joyce as manager of the New
Yorks. Davis went along merely as Mr. Freedman's guest. "Scrappy Bill" will fill the same
place next year that he did, last summer, the
club officials having great confidence in his
ability to make up another winning team.

Tommy Cuming of the Orange A. C. says that

Tommy Cuming of the Orange A. C. says that he was a member of the ill-fated "New York Amstour" team which was taken abroad not long ago by Al Lawson.

"We had only seven men when we landed in England," said Cuming, "and we were in a terrible stew. Lawson went outside of the tavern in which we were stopping and saw two laborers. He tasked them if they wanted to carn a shilling apiece, and they jumped at the chance. He took them to the grounds where we were going to play that afternoon, and made them put on uniforms. Then he compelled them to pull their baseball caps down over their ears and faces, so that they could not be recognized. When we got on the field those two fellows were ordered by Lawson to play so far out in the field that it was impossible for them to get hold of the ball. Then our shortstop was put into short left field, and our centre fielder was moved around toward right, while the second baseman played practically in short field, with the first baseman looking out for most of the latter's usual territory. It was amusing to me as I stood behind the bat to hear the Englishmen asy:

"What a bloomin' queer way, doncherknow,"

men say:
"What a bloomin' queer way, doncherknow,
these Hamericans have of placing their field.
We must learn it and be up to date, doncher-

"When the game was over, and it was the only one we played, Lawson left suddenly. I was the only fellow in the crowd who had a return ticket. The others didn't get enough money to come back to America for at least two months.

J. B. Brine, who makes a business of visiting the bir universities and colleges, says that he heard several prominent football men at Cornell speak favorably of sending a request to Yale for a game next year. As Cornell's record in football, as in rowing, is clean, there seems to be no good reason, according to impartial judges, why Yale shoud not consent to such a contest. Cornell's games with Princeton, Harvard and the University of Pennsylvania have, of late, been considered in the first rank of importance. If Yale can find a place for Cornell in her next years schedule the game will probably be played at New Haven, as the Ithacans are willing to concede this point.

Harvard oasemen by Freedom't Frank Thomson of the Pennsylvania Railroad. Shipbuilder Cramp of Philadelphia has started work on the boat and hopes to have it ready whenthe Crimson eight resumes work on the Carles River next March. The launch will be fifty feet leng, about the same, length as the John Harvard, but will have a greater beam. The boat will also draw only three feet of water, and will be built very low, so that it will be possible to pass under the Charles River bridges at high tide. She will be able to cover seventeen miles an hour, which is much better time than the old boat ever could do. The total cost of the launch will reach \$8,000. Mr. Thomson's two sons are students at Harvard. One of them was a varsity substitute at Poughkeepsie last summer.

GOLF.

end of the Qualifying Roundant the Richm Mill Club-Scores at Nutley.

The qualifying rounds at the Richmond Hill Golf Club for the Van Rensselaer cup were fin-ished yesterday. The cold weather and high winds made low scores impossible. The follow-ing players have qualified and will compete at

W. Hunt Hall.

There was no lack of play at the Nutley Golf Club during the week that ended yester-day, and most of the time the golfers found the day, and most of the time the golfers found the turf in fine order. The important match was the final for the Morgan Cup for women, between Mrs. W. J. Berg and Mrs. J. V. Bouvier, Jr., the latter receiving odds of 28 strokes. After a well-played game Mrs. Berg won, by 1 up. The only cards returned in the qualifying play for the Morgan Cup for men were by Eugene Plunkett, 114, 20, 94, and A. H. Larkin, 92, 2, 90. The following matches were played in the championship series:

Geer beat T. W. Satterthwaits by 3 up and 2 to play, Libby beat Walcott by 4 up and 3 to play, Libby beat Berg by 5 up and 1 to play, Johnson beat Bouvier by 1 up, Sergesant beat Bouvier by 5 up and 5 to play.

The following are the best cards to date for

The following are the best cards to date for the December Cup: M. M. Michael, 83 and 87; S. H. Dorr, 83, 91, 84, 92; Alpheus Geer, 85, 87; F. W. Satterthwaite, 86, 93; F. A. Chapman, 90; E. Morgan, Jr., 93, 97; A. Ohrtman, 101, 102.

The full conditions for the professional tour nament, at thirty-six holes, medal play, at the Ocean County Hunt and Country Club, on New Year's Day, were sent out vesterday by the Greens Committee, A. B. Clafin, J. Converse, and W. A. Hamilton. The purse of \$150 will be divided as follows: Fifty per cent. to winner, 25 per cent. to runner up, 15 per cent, to third man, and 10 per cent. to fourth man. The first round will start at 10:15 o'clock in the morning and the second at 1:30 o'clock in the afternoon. Ties will be decided by playing one hole. U. S. G. A. rules will govern, except where they conflict with local rules.

Indoor Contests at the New York University. The first of a series of indoor athletic competiions took place in the gymnasium of the New York University yesterday afternoon. There were forty entries in all the contests. The high jump was won by L. Robertson, 1900, with 5 feet 2 inches; Belcher, 1900, Mayall, 1900, Hyatt, 1901, second, with 5 feet; MacCracken, 1900, L. Herman, '98, and Delamater, 1901, third, with 4 feet 11 inches. The other contestants scored as follows: 4 feet 10 inches, Dench field, 1901, Watson, 1900, Smith, '99, and Elder, '99; 4 feet 9 inches, Molleson, 1900, Carey, 1901, Macdonald, 1900, and Hill, 1901. The 100-yard dash was run on a track twenty laps to the mile. It was won by Arthur Smith, '99, 11 4-5 seconds, breaking the N. Y. U. record of 12 seconds, held by Weightman, '97. McNamara, '99, was second, 12 seconds; Hicks, 1900, Belcher, 1900, Herman, '98, Barron, 1900, Van Vleck, 1900. and Young, 1901, third, 12 2-5 seconds. The 440-yard dash was run by some of the contestants and the balance will go to-day.

The scoring is not done upon the principle of first, second, and third, but according to the time made. A performance equalling a world's record scores 100 points, and the remaining times are graded until the performance counts 1 point. The games are for the Banks cups and medals for those scoring the largest number of points. Cups will go to the first, second, and third men, and bronze medals to the fourth, fifth, sixth, seventh, and eighth in each event. The next contest will be held on Jan. 6. Two events will be decided, the half-mile run and pole vault. '99; 4 feet 9 inches, Molleson, 1900, Carey, 1901,

William T. Letts of Hoboken skated an exhibition two-mile race at the Ice Palace last night, covering the distance in 5 minutes 57 3-5 paced by Earle Reynolds, August Pupke, and George G. Hemmingway. The inrecord was 6 minutes 3 seco to Harold McCormiok at the Granite Rink, Toronto, four years ago. The management of the fee Palace Rink has doubts as to the length of the fee Palace Rink has doubts as to the length of the track, and it will be surveyed within a week. The exhibition last night did not begin until after 9 o'clock, at which hour the big building was crowded with skaters and others, who had been attracted by the feature of the evening. Letts appeared to be in fair condition, and after the ice was cleared he shot over the line, the start being a flying one. After the second lap Reynolds slipped in and attempted to make the pace. He was practically a hindrance, however, owing to his lack of condition and slow speed. After another quarter of a mile Hemmingway was tried, but he also proved incompetent and retired in favor of Pupke. After the latter stopped Letts was practically unpaced until the last quarter, when Reynolds again appeared and showed the way to the finish line. The first mile was done in 2:55 and the second in 3:02 3-5. to Harold McCormick at the Granite Rink.

Moeting of the American Turf Congress. CINCINNATI, Dec. 20.-At a special meeting of the American Turf Congress to-day, at which were represented three local tracks and those of Lexington, Louisville, Nashville, St. Louis, Little Rock, and New Orleans, the following

was the action taken as to Pimlico's alleged vio-lation of the winter racing rules, in regard to which the Congress and the Jockey Club have been apparently at some variance: been apparently at some variance:
Believing that racing was given and participated in at the Pimileo track on Dec. 1, 2, 8, and 4, 1897, under the impression that it was not in controvention of the laws of the Congress or with the intention of violating them; therefore, it is

Resolved by the Congress that same track and persons and horses that participated in such racing are hereby reinstated to all the rights and privileges on the tracks of the Congress that they heretofore enjoyed.

nersy reinstance to air the rights and privileges on the tracks of the Congress that they heretofore enjoyed.

Resolved, further, that by this action the Congress does not abate its opposition to or countenance winter racing as prohibited by bylaw six, or to restrict its enforcement to suppress that evil so destructive to the legitimate sport; that the Congress is willing to oc-operate with any other authority to utterly destroy it, and invites such co-operation.

The Harlem track at Chicago was admitted. The rule fixing purses for tracks in the vicinity of cities between 200,000 and 500,000 population at \$300 was changed to allow \$250 purses at the special request of the Crescent City Jockey Club of New Orleans, which claimed that the yellow fever scare had materially cut down its receipts.

The application for reinstatement of J. Brannon, accused of implication in the famous Polk Badget "ringer" case several years ago, was referred to a committee to report on Jan. 10.

NEW ORLEANS, Dec. 20.-Mazarine's victory n the fourth race was to-day's feature. She was comparatively an outsider until they had gone to the post, when a flood of money reached the ring, and the colt's odds were cut from 10 to 1 to 2 to 1. The ring was hit heavily on the vic-tory. Meeting in the Interest of Knockabouts. A meeting of the Advisory Committee of the Yacht Club knockabout class was held at the office of Secretary Scoville yesterday afternoon.

E. Burton Hart, Jr., Frank Bowne Jones, Newbury D. Lawton, and A. Bryan Alley were present, and the changed designs sabmitted by B. B. Crowninshield were discussed. The rake of the rudder post, which was the principal fenture in the original design that did not meet with the approval of the committee, had not been altered enough, nor had the sail plan so as to conform in detail to the other drhwings. The design, however, is in such shape that the committe is justified in asking for blds from builders. Several well-known firms have been recommended, and definite figures on the specifications will be received within the next twenty-four hours.

Frank Jones has been authorized to sign a contract with any builder he may select for the construction of the boats, and this will doubtless be done before to-morrow night, at which time a meeting of all yachtsmen interested in the matter will be held at the Grand Union Hotel at 8:30 o'clock. office of Secretary Scoville yesterday afternoon.

What Yachtsmen Think of the New Schooner The new fifty-foot water-line schooners continue the leading topic of conversation among yachtsmen. The design is nearly finished and presents a wonderfully shippy appearance. The new boats will be practically small editions of the noted Yampa and built in the best style that can be turned out on the Maine coast. A promi-nent member of the Atlantic Yacht Club said

can be taken as the Atlantic Yacht Club said yesterday:

"They will be little ships, fit to cross the ocean in. At the same time their shallow draught will enable them to enter any of the small harbors along the coast. For myself, should I decide to build, I could think of no more able boat than the proposed class would develop. In my boat I will have an auxiliary engine of about ten horse power, so that I will be able to get into port whenever the wind dies out. This will also be useful in the rivers and bayous of Florida, where the channels are often too narrow to admit of beating up againstla head wind."

The promoters are enthusiastic as regards the possibilities of the type, and the meeting, which will be called within a few days, promises to be an interesting one.

Reports were submitted by the retiring offi cers and heads of the various committees show, ing the affairs of the division to be in a presperous condition, Ex-Chief Consul Potter his report went over the work of the division during the year. Secretary-Treasurer Bull is his annual statement showed that the membership of the division was 26,906, an increase of 13,936 over 1896. The receipts for the year were \$28,796.07 and the disbursements \$28, 203.23, leaving a balance of \$592.84 now or

203.23, leaving a balance of \$592.84 now on hand.

Chief Consul Jenkins presented a report touching upon the various departments. He declared that a highway improvement bill will be introduced at Albany this winter, the department to be under State control. A bill will also be introduced for the adoption of a general State law in relation to the construction of side paths in different counties. Consul Jenkins touched upon the question of local organizations, and ventured theopinion that such a movement would materially aid the growth of membership in the division, which he anticipates will reach the 50,000 mark in 1898. The adoption of a junior membership in the division was advocated by Consul-Jenkins.

Upon the subject of six-day races, the new Chief Consul advocated that the L. A. W. discourage and prohibit such contests in the future. He called attention to the fact that while the L. A. W. granted a sanction to the promoters of the recent six-day race in the Madison Square Garden, the organization in no sense approved of the race. Jenkins urged that the L. A. W. take steps to present an amendment to the National Assembly for the prohibition of such contests.

The formation of a junior membership or cadet corps was discussed at longth. It was the sentiment of the meeting that such a department was calculated to help the League and provide for the accommodation of young riders. It was decided to present the following amendment to the constitution at the national assembly:

Amendment to section 1 Article III constitution

the constitution at the national assembly:

Amendment to section 1, Article III., constitution
of the League of American Wheelmen:
Provided, however, that the Board of Officers of any
division may insert a clause in the division constitution or by-laws providing for the establishment of a
cadet corps of the League of American Wheelmen, to
be subject to the control and management of the Board
of Officers of the division. Such Cadet Corps shall
consist of minors between the ages of 10 and 18
years, whe are members of families or wards of adult
members of the League of American Wheelmen, in
good standing. Each member of the Cadet Corps
shall be furnished with a numbered ticket
of membership by the Secretary-Treasurer of good standing. Each member of the Cadet Corps shall be furnished with a numbered ticket of membership by the Secretary-Treasurer of the division and also with a pin of appropriate design, to be furnished free of charge by the State division. Each member of the Cadet Corps, while in good standing, shall be entitled to all of the privileges and protection afterded to adult members of the League of American Wheelmen, except voting for and holding office in the League, or of the receipt, without charge, of the official "Bulletin" road book or other publications issued free to the members of the League. They shall also be entitled to hotel and repair shop discounts while touring in the company and under the control of adult members of the League of American Wheelmen. Each applicant for membership in the Cadet Corps shall pay to the becretary-Treasurer of the division, an initiation fee of 30 cents and shall also pay 50 cents for annual dues, such dues and fees to be covered into the State division treasury, for the exclusive use and benefit of the division. When members of the Cadet Corps reach the age of eighteen years they shall, if eligible and they so desire, be transferred to the membership roil of the League of American Wheelmen, the Secretary-Treasurer of the division wheelmen, the Secretary-Treasurer of the division in the league of American Wheelmen, the Secretary-Treasurer of the division notifying the Secretary-Treasurer of the division motifying the Secretary-Treasurer of the division motifying the Secretary-Treasurer of the division wheelmen, the Secretary-Treasurer of the division wheelmen, the Secretary-Treasurer of the division wheelmen, and shall then be The Executive Committee suggested that the \$1,200 appropriated for the Unief Consul be reduced to \$750, but this was defeated.

An Englishman has invented a new way of fastening the rear wheel in its place so that it can be removed without unboiting the chain. This is done by hinging the lower jaw of the slot in the rear fork ends where the wheel fits in. By moving the wheel slightly forward the chain can be slipped off over the sprocket and the wheel drops down. The device was designed in sid of the gear case and will save a great amount fof annoyance in removing rear tire to those who use the English case. One of the points of superiority in the American gear cases, however, is that they are constructed so that it is not necessary to take them off entirely in such an emergency. The section that covers the rear sprocket is made detachable and comes off with the wheel. Two manufacturers are known to have adopted English cases for 1898, but most of them will use American models. A Chicago manufacturer announces that he has invented a new case of stamped steel for exclusive use on his wheels. The case joints together by means of tongue and groove flanges. It has separate chain runs, and the spokes of the main sprocket wheel are experimenting with gear cases say they travel 2,000 and 3,000 miles without touching their chains, and yet ride easy running whoels.

chains, and yet ride easy running whoels.

NOTES.

The advantages of electric pace-making in match races was shown in Paris early in the month. Tom Linton, the Welsh rider, paced by a quadruplet, and Jacquelin, the French rider, paced by an electric tandem manued by the Jallers Brothers, met in a series of races at one and five kilometers respectively at the Velidirone du Parie de Princes. Jacquelin's nacing was decidedly the best, and he won both races handily. This was the first trial of electric and human pacemakers in a match contest. Throughout the race the electric packing team kept pace with Linton and rode away from him at will.

At the twenty-first samual bicycle show held in Agricultural Hall, in London, early in the month, a great variety of bicycles and sundries were shown, but few radical novelites noticed. The foreign manufacturers have made small alterations in their 1888 wheels from this year's models. One firm exhibited an eighteen-pound blevele with a frame of fine tubing arranged on the cantilever plan. If it a road wheel and excited considerable interest due to its gonstruction and weight. A minuter of novolities were shown in bicycle brakes.
